PROFESSIONAL EXPERIENCE

Frontend Developer | [Private Hospital SADIV](#)

08/2024 – 05/2026

Developed and maintained public-facing and internal web solutions for the institution, contributing to the digitization of administrative processes, user experience improvements and performance optimization.

- **Maintained and improved** the institutional website built with **Next.js, React, TypeScript** and **Tailwind CSS**, implementing new sections and responsive components.
- **Optimized** the public website performance to achieve a **98 Lighthouse score**, improving resource loading, images and components.
- **Implemented Google Analytics 4** tracking and embedded integrations to improve measurement and the browsing experience.
- **Developed** intranet modules using **Laravel, PHP, Blade, JavaScript, jQuery, Bootstrap** and **MySQL**, including forms, validations and dynamic tables.
- **Built** administrative workflows involving multiple roles, statuses, approvals, notifications and management history.
- **Developed** the **Supervisor Portal module**, centralizing internal processes with department-based access control, including performance reviews, vacation and leave requests, disciplinary actions and purchase requests.

Frontend Developer (Freelance) | [DameTurno](#)

11/2024 – 07/2025

Contributed to the maintenance and evolution of an existing appointment scheduling platform, collaborating with a backend developer.

- **Maintained** and enhanced the Angular frontend, fixing bugs and implementing new features.
- **Proposed and implemented** functional and user experience improvements based on issues identified in the platform.
